

3B Weekly News

January 26, 2016

Greetings to all 3B families!

This week we worked on writing word problems to match a multiplication diagram. We also continued to work on fractions and their equivalent fractions.

The students wrote their weekly essay on the Mystery Powder experience. They completed a vocabulary journal entry, and finished their mystery literature unit.

Students chose their president and began the research. Some are well into completing their poster.

This has been another very productive week in 3B!

Have a nice weekend!

Mrs. Bishop
