

3B Weekly News

February 5, 2016

Greeting to all 3B families!

Ben the "Therapy Dog" began his visits with us today! Students read their mystery narratives, in groups, as they enjoyed this experience.

This week students completed a Number Corner assessment reviewing rounding, computation, and some multiplication. We continue to work on addition and subtraction as we add more multiplication practice. They are currently working on a poster that teaches strategies for factors 0 - 10.

Snowflake activity with our Buddies! Will it ever snow???

Students wrote a narrative mystery, as a complement activity to their Mystery Powders work. We have begun an introduction to energy, with some work with electrical circuit building. This is another inquiry-based unit, so students are given the materials and asked to build the circuit.

This is a share about Edison's lightbulb!!

The class has begun reading and analyzing the life of Thomas Edison through his biography. As they read the book they are also completing a journal with illustrations, vocabulary and main idea/prediction work for each chapter.

Don't forget the first OQS Family Math night!!! - Feb. 25!!!!

They continue to work on their president posters. They are now trying to identify why their president should be considered the "Greatest President!"

Next week we will exchange valentines on Friday. Students will create a valentine holder. If your child chooses to exchange valentines here is the class list:

- | | | | | |
|---------|-----------|----------|---------|-----------|
| Adrian | Alex | Andre'a | Bennett | Colby |
| Ella | Faith | Janabeth | Larkyn | Lyssettee |
| Matthew | Maura | Norah | Sophia | Joren |
| Bryce | Brookelyn | | | |

Here are the students involved in their electricity investigations:

Here's the students sharing their Diversity projects!
